1. WHAT

THE AIMS OF THE PROJECT
European population is ageing rapidly, but living longer does not necessarily mean living a healthier, more active and independent life. Demographic ageing is a global trend, in Europe, the number of people aged 65+ will rise from 85 million in 2008 to 151 million in 2060 and the number of over 80s will almost triple.
Our project is for the development of social and civic competences of the European citizens.

The project will involve a broad number of European citizens of every age and social condition, as well as a broad number of European organisations of Adult Education interested in the theme of memory and of the autobiographical methodologies as educational tool.
The project will create products and activities, as the European Competition, the digital Archive of European Memories and storytelling groups addressed to long-lasting activities
Digital tools

Multimedia tools to be used to disseminate the memories of the target group

Web applications

The tools will be online and open for everyone
WHAT IS MORE......

OUTCOMES

QUANTITATIVE INDICATORS
- Number of people – organizations involved in the various steps of the project
- Number of visits to the portal and stories submitted to the competition
- Percentage of activities realized compared to the initial work plan

QUALITATIVE INDICATORS
- Self-evaluation on the part of the project work staff
- Self-evaluation by the participants at the various levels
  - Evaluation by user-groups
**Local Dissemination Activities in each partner country**

The first target-group is constituted by the organisations and operators who will be involved in the research activities and corresponding to a broad number of organisations of Adult Education. This activity aims either to collect informations on the activities dealing with the autobiographical methodologies carried out in Europe, or to promote a wider knowledge of the existing project and of the future European Digital Archive of Memories. Another target-group is represented by operators and learners directly involved in the storytelling groups, who will have a more active role within the project; the number will go from 100 up to max 200 beneficiaries.
